

# Gail Hobbs

Developer who is passionate about building elegant, artful applications. She is excited by tools that creatively engage local communities to come together and is based in the San Francisco Bay Area.

Education

University of California, San Diego (UCSD) Mathematics-Scientific Computation, Bachelor of Science Graduated 2020

#### Tech Stack Experience

**JavaScript** Flatiron School Software Engineering Bootcamp, Student

ReactJS January 2023 - May 2023

Python Inspired to build on React experience, I joined a comprehensive bootcamp tackling **HTML** all fundamentals of the framework, as well as the Python framework Flask, and the

**CSS** creation of back end web APIs.

SQL International Atomic Energy Agency, IT Innovation Engineering Intern Java

United Nations Office - Vienna, Austria C / C++ / C#

September 2021 - August 2022 R

Responsible for rapid prototyping, proof-of-concepts, dashboard creation, and Matlab exploring the feasibility and scalability of new technologies for IAEA clients. My Azure projects assisted with full stack development involving Azure, front end work on Docker React applications, QA software testing for nuclear incident reporting, Power BI reporting and database management for coordinated research projects.

# Libraries I enjoy

Qualcomm Institute at UCSD, Data Science Research Intern University of California, San Diego — San Diego California September 2019-March 2020

scikit-learn TensorFlow My team was responsible for researching model creation and measuring NGO impact on environmental initiatives. I catalogued features of NGOs and citizen-
